

Allegro Multimedia and Music Publishing Giant Warner/ Chappell Expand Piano Wizard Tunes with Landmark Agreement

Allegro Secures Licensing Rights to Popular Songs.

Longmont, Colo. – (Sept. 28, 2007) – Allegro Multimedia Inc., manufacturer of the Piano Wizard video game, and Warner Chappell have signed a landmark agreement which provides licensing rights to some of the most important popular songs of all time. The new songs are being added to Allegro Multimedia’s Wizard Tunes song library at www.wizardtunes.com.

Piano Wizard is an innovative video game that combines the fun and excitement of a video game with a 4-step patented learning method that allows anyone to learn to play piano and read music. Piano Wizard is driven by standard MIDI files which enables the player to download song files into Piano Wizard’s PREMIER version. This allows the user to learn tunes that they would like to learn to play, thus making the potential library expandable and infinite.

“The addition of the Warner Chappell library is a major step in championing the expansion of our Wizard Tunes catalog, this will allow customers access to a diverse library of top artists and music genres from Elvis to Phil Collins to Usher” said Rick Carlson, Sales and Marketing Manager for Allegro Multimedia Inc.

“Allegro Multimedia’s goal is to reach all ages with Music Wizard education products and enlighten them with the amazing ability to play the music they love. We strive to expand the horizons of the Music Industry through our revolutionary and easy music education programs” said Chris Salter, C.E.O. of Allegro Multimedia.

Piano Wizard is available in two different versions, PREMIER, with a built in curriculum of 200 songs in addition to its expandability with MIDI files and Easy Mode, which comes with a built in curriculum of 100 songs. PREMIER is available for \$149.99 and Easy Mode for \$149.99.
